### Dave Domina's Senate Announcement Tour Set for this week

Dave has championed ag market reforms, the corrosive impact that captive supply has on price discovery, and the private property rights issues of landowners in the path of the Keystone XL pipeline. He has been a friend and an ally for us on family farmer issues for many years. Dave Domina was the lead lawyer in the Tyson versus Pickett law suit a few years ago. He proved and won the case for over one billion dollars, only to have the judge throw out the money settlement. The jury had convicted Tyson. Dave took this case on using his own money and time. He lost a lot doing this. I feel we owe him the right to represent us in the Senate. Please consider this. Find out who he is and support him.

(Vince) I personally know Dave; his law firm handled my Custer Feeds Extruded Cubes case. He helped start I.C.O.N. (Independent Cattlemen of NE) He is for us. If you don't know him, please try to see him where ever he speaks at. He fought for us against the meat packers in Colorado at the GIPSA meetings.
